

## Return and Earn for Kunsang Yeshe Retreat Centre

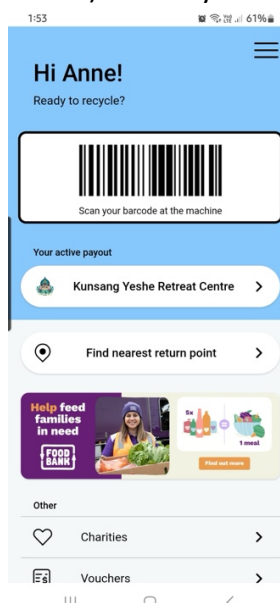

Kunsang Yeshe has registered for the Return and Earn Program. The program recycles used bottles or cans with a 10c refund for each container. So, if you could collect these instead of putting them in your recycling bin, it will help us.

With Christmas coming up, it is a perfect opportunity for you to register for the program and direct your refund to Kunsang Yeshe. How to register and how to use the Katoomba Facility is detailed below. These instructions are for new users only. If you already have an account, please just sign in and select Kunsang Yeshe as your charity.

- **How to download the App for your phone** – Android or IOS is available so go ahead to the Play Store or Apple Store
- **Search for the Return & Earn (Tomra Digital Software) App** and click Install.

- Open the app, enter your name and email address to **register**. You will then be sent a link in an email to sign in. Click the **Sign in** button. The Return and Earn App will open with a welcome to you and a **bar code** (as below). This is your unique identifier for donating.

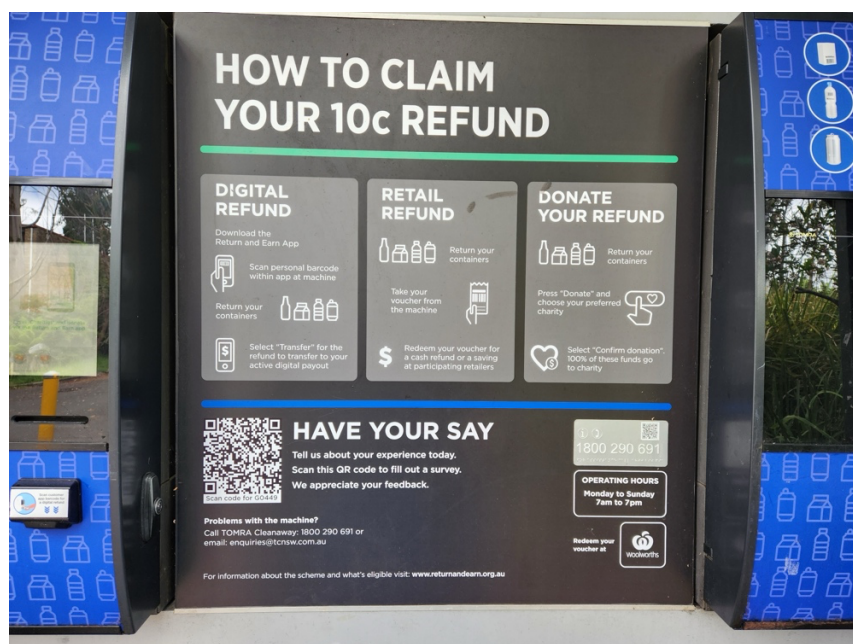

- Under the barcode you will see **'Your Active Payout'**. Click the right arrow. In the Search box enter **Kunsang Yeshe**. Select that as shown in the screen shot above.
- You are now set to use the app at the automated machine at the Return & Earn point.  
Addresses
  - Katoomba - 225 Great Western Highway. Access is via Civic Place. The site shares The Edge cinema premises.
  - Wentworth Falls Country Club – 206 Blaxland Road.
  - There is also a collection point at Springwood and multiple places around the Penrith region or NSW

**Now that you are set up here is how to use the machine at the collection point – it's easier than you might think!**

A location shot for Katoomba above – Edge Cinema on the left

Simply scan your barcode from the Return and Earn App, (that will start the conveyor belt), then feed your bottles into the machine.

NOTE: there is a different shute for glass bottles vs plastics, cans and cartons (as shown below)

Conveyor Belt

Bar Code Reader

Thank you for your ongoing support of Kunsang Yeshe!

(thanks to Helen Patrin for this great idea)
